## TK(C) Unlimited

The short-term ticket that leaves no desires unfulfilled.

### The basis of numerous parking facilities

- A simple disposable ticket made of paper, ideal for short-term parkers.
- Works with all SKIDATA parking systems and can be obtained directly or from certified suppliers.

### Unprecedented cost-benefit ratio

- The cheapest solution for great amounts of tickets.
- Save on printing costs, since you won't be needing any additional printing materials such as color ribbons.
- Optional magnetic stripes for extended durability.

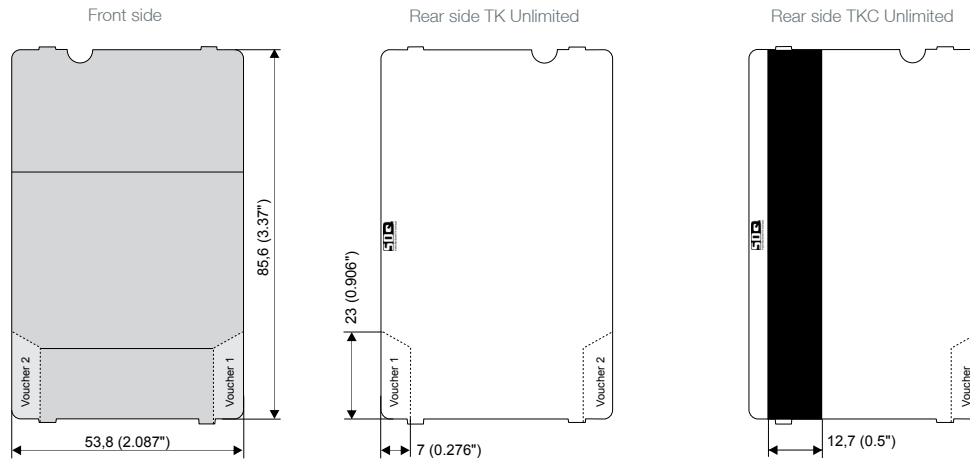

### Responsible behavior

- Act responsibly. The decision for the TK(C) Unlimited is a decision for the environment.
- FSC™-certified: The paper for the tickets comes from responsible sources.

### Numerous possibilities

- Design your tickets according to your corporate design and use unused areas as advertising space.
- Reduce the need to refill by using continuous tickets and maximize the rate of entries.

all dimensions in mm

■ Thermal printing section: Can be imprinted on its whole surface, black imprint
